Top 3 goals for my website:

Takeaways

- ★ All websites have room for improvement - Google Analytics will show the way
- ★ Set up goals to more accurately (and easily) track successes and failures
- ★ Focus only on those reports that are relevant to your website

Reports to help me track these goals:

Tips & Tricks

- ★ Reports can be automatically emailed / added to custom dashboards
- ★ Custom segments can be added (mobile, etc.)
- ★ Compare timeframes to see improvements / set annotations when changes happen
- ★ Apply monetary values to your goals
- ★ Review on a regular basis (or else it's just a tool)
